### **Instructor BIO**

#### **Troy DeGroot, Bluebeam Certified Instructor, UChapter2 | Owner**

As a Bluebeam Certified Consultant, Bluebeam Certified Instructor, and Implementation Specialist, Troy travels the country training over 2,000 students annually with customized tools and workflows. It is these extensive and diverse training opportunities that have led to Troy being a requested annual presenter at AIA meetings, Bluebeam Academy and Bluebeam's very own eXtreme Conference (XCON).

With over 20 years in the industry, Troy has cultivated a deep understanding of the requirements of customers, the needs of end users, common goals of management, and the capacities of the technology. He has led many companies through successful software implementations and training. Having served as the BIM Manager for a large multi-discipline engineering firm, he provides a broad understanding of the industry and the evolution of technology.
